HURRY CALL FOR MARINES. Drafts Made Sunday Upon the New England Navy Yards.

Boston, Dec. 12 -A hurry call for Boston, Dec. 12.—A hurry call for marines to proceed with the cruiser Prairie on her interrupted trip from Philadelphia to Colon was made from Washington upon the three New England navy yards. It yielded but 96 men. drafts of 25 men from Charlestown, 29 from Portsmouth and 32 from Newport, R. L., all that were available.

That is the view of the situation as taken on the Isthmus, where, to be sure there are many Nicaraguans, naturally very strongly opposed to the present administration in their country.

Zelaya's Statement Contradicted by Deserter.

The statement issued by Zelaya to the Pennsylvania railroad, near Downthie.

The men bave orders to report at the League Island navy yard, Philadel-phia, in heavy marching order, and will leave tomorrow evening. It is understood the Prairie will sail late Tuesday or early Wednesday.

PRESIDENT ZELAYA WORKING TO BRING ABOUT INTERVENTION Chooses This Form of Humiliation Rather Than Defeat by Estrada.

Panama, Dec. 4.—It is the opinion of Panamans that President Zelaya of Nicaragua is riding to fall, that he is deliberately working to bring about intervention by the United States, having chosen this form of humiliation in preference to the greater one of suffering defeat the hands of Estrada and the revolutionality.

Head of the Revolutionary Movement Confident of Victory.

Washington, Dec. 12.—Senor Castrillo, the representative of the Nicaraguan insurrectionists in this city, received this cablegram today from General Estrada, head of the revolutionary movement.

Zelaya Worth \$20,000,000.

For the past sixteen years, during which Zelaya has been in power, ac-cording to the statements of men now on the isthmus, who are conversant with affairs in that republic, Nicara-gua has been ruled by a group of eight daring, clever and conscienceless men. daring, clever and conscienceless men, who have looked upon the country as their own personal property. This group has grown enormously rich by a systematized pillage of the revenues of the state and of individuals. It is estimated that Zelaya is worth about \$20,000,000 gold, most of which he has invested in Brussels and London.

Chief Cause of Present Revolution. It is said to be well established that the chief cause of the present revolu-tion was the fallure of Zelaya to dis-tribute among his seven associates a loan of \$5.000,000 obtained recently in Europe. The seven were given a share of the money, but not on the basis of remonstrated at this, but all to no purpose. Zelaya refused to pay off on the old basis and even threatened that 4f they did not submit gracefully he would turn against them the system which they had jointly organized. This system was simple but effective.

That a reign of terror is being maintained in Managua and that not less than 500 persons identified with political affairs are in chains in the prison. A Catholic society has been ordered to cease sending food to the prisoners, and these are in a fair way to starve to death, for they are allowed only two cents a day for food.

Methods of Zelaya's Agents.

Its modus operandi was about as follows: Whenever in any region of the country a citizen was found in lawful the group was sent to him to ask the price for which he would sell it. When

Worcester, Mass., Dec. 12.—A remarkable assertion of the practicability of human aviation is embodied in
the announcement here today of Walthe announcement here today of Walthe announcement here today of Wallace E. Tillinghast, a well-to-do citizen and vice president of a Worcester manufacturing company, who claimed to have secretly built and tested an aeroplane capable of carrying three passengers and in which he says he has flown from his station near Worcester to New York, thence to Boston and back, a distance, of 369 miles, a speed of 129 miles an hour being maintained at various times. FIRE ISLAND SURF MAN HEARD BUZZING HIGH IN AIR Companions Say He Mistook Flock of Geese for Aeropiane.

New York, Dec. 12.—William Leach, one of the surf men of the Fire Island life saving station, believes he heard an acropiane pass high above him while he was doing patrol duty at 7.15 o'clock tonight. First, he heard a buzzing high in the air, and whatever made it, he says, passed directly over his head, but at a height beyond his ability to estimate. The noise he heard resembled the rattle and hum of a high speed motor, running wide Circled Statue of Liberty at Height of The test was made on Sept. 8 at night, according to Mr. Tillinghast, who says he circled the statue of Libwho says he circled the statue of Liberty at an elevation of 4,000 feet and was seen on the return trip by a ceast guard on Long Island, when flying low, the fact being recorded in the newspapers at the time. When near Fire Island, Mr. Tillinghast declares, the machine scaled in midair for forty-live minutes at a height of 4,000 feet while two mechanics who were with him reof a high speed motor, running wide
